

SHYC Ladies' Sailing 2018

Please join us for a women's sailing clinic on Tuesday evenings from 6 to 8 pm. This program will run from June 26 to August 7 (no session July 31). All levels of experience are welcome. We will have an SHYC junior instructor available to assist us once again this year and plan to use the Club's fleet of 420s. (We may also use an Ideal 18 or other boats depending on interest and participation by boat owners.) This program is designed to allow participants to improve sailing skills and build confidence by working together in a supportive environment. Our focus will be on learning by doing. We will attempt to pair beginners with those who have participated in the past with the goal of getting everyone out on the water enjoying the breeze.

The cost per session is \$25 to be billed to your account. Space is limited to 12, with a minimum of four ladies needed to run each individual session, and you must sign up for two or more evenings to participate in this program. To register for two or more sessions, please access our sign up at shyc.club, click [HERE](#) or type the following link into your browser:
